

FEEL YOUR BEST LEADING UP TO YOUR BIG DAY!

RYZE is a wellness brand best known for its mushroom coffee alternative. It blends organic Arabica coffee with six functional, adaptogenic mushrooms (Cordyceps, Lion's Mane, Reishi, Shiitake, Turkey Tail, and King Trumpet) and MCT oil.

It is designed to provide several daily benefits:

- **Sustained Energy:** Offers about 48mg of caffeine per serving—about half a cup of traditional coffee—preventing the standard mid-afternoon crash.
- **Mental Focus:** Uses ingredients like Lion's Mane to clear brain fog and boost cognitive function.
- **Immunity & Digestion:** Utilizes Turkey Tail and Reishi mushrooms, which are rich in beta-glucans to support gut health, relieve stress, and boost your immune system.
- **Calmer Experience:** Adaptogens prevent the jitters and anxiety often caused by traditional coffee.
